Bedroom 4: Breakfast in Bed

Valerie Garrett Interiors is known for creating homes with elevated Southern style and infused with fresh perspective. Blending traditional and transitional styles, her designs create sophisticated spaces that come alive through the connections they foster: stylish and understated, quiet and tasteful.

Principal Valerie Garrett has called Georgia home for more than 35 years, and opened her design firm 25 years ago. She believes that a sense of place is critical to ensuring that a home feels authentic, saying, “I believe good design captures the illusive, the essence of the individual and the home, and enables us to bring it to life.” This year, the Macon-based firm expanded into the Atlanta area and the team shared that they have been welcomed to the city in ways they never imagined. They are thrilled to share their signature style in the 2020 Home for the Holidays Designer Showhouse.
